15. Producing the finding us page ( 5:22)
16. Completing the hyperlinks (3:43)

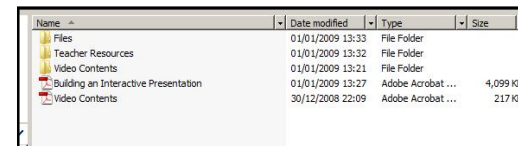

## Instructions

When you open the folder you see three sub-folders:

**Files** – contains the finished site.

**Teacher Resources** – contains the images and text files.

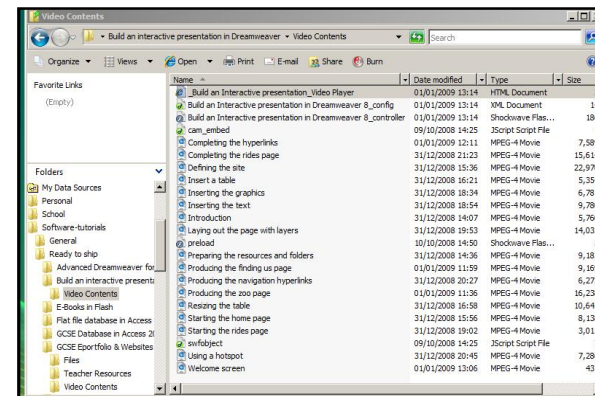

**Video Contents** – holds the individual MPEG-4 Movies + the player.

The booklet is a PDF to print off and give out **as a hard copy only**.

## Running the videos

- ✓ Open the Video Contents folder.
- ✓ **Double click** on the **\_Build an interactive *presentation\_Video Player file***. This runs it in your browser.
- ✓ You can also run the individual videos in whatever player you have installed if you wish to do so as they are all individual movies.

You will require the latest **Flash Player** and **Java** software installed.
