34. A few finishing touches (7:00)
35. Inserting background images (7:00)
36. Produce your own navigation bar (22:10)
37. Embedding a video file (6:00)

Instructions for using the videos

You will require the latest Flash player and Java installed on your computer.

When you open the main folder you will see sub-folders containing:

- **Files** – are the files that were used in the videos
- **Teacher resources** such as images
- The **video contents** hold the individual videos and the video player – which is the first file and this is what you **click** on to view the videos using the player. You can click on each video individually if you wish.

Name	Date modified	Type	Size
GCSE Eportfolios in Dreamweaver Video Player	30/12/2008 18:02	HTML Document	
Accidentally producing a new style	27/12/2008 14:12	MPEG-4 Movie	12,08
